

A stylized, colorful map of Chicago, Illinois, designed by Stamen Design. The map uses a vibrant color palette including shades of orange, yellow, green, blue, and purple to represent different urban areas and parks. The city's grid-like street pattern is clearly visible, and the map is bordered by a blue area representing Lake Michigan.

CIVIC TECHNOLOGY: INTRODUCTIONS

@abhinemani | CAPP 30130 | University of Chicago

A partial view of the Stamen Design map of Chicago, showing the bottom edge of the city grid and the blue area representing Lake Michigan.

WHAT IS CIVIC TECH?

(And who are you?)

BLIGHT IN NEW ORLEANS

A Case Study

BLIGHT IN NOLA

CITIZEN: WHERE IS BLIGHT?

Residents were taking it upon themselves to map vacant housing.

MAYOR: WHERE IS BLIGHT?

The mayor and other officials struggled to track blight themselves.

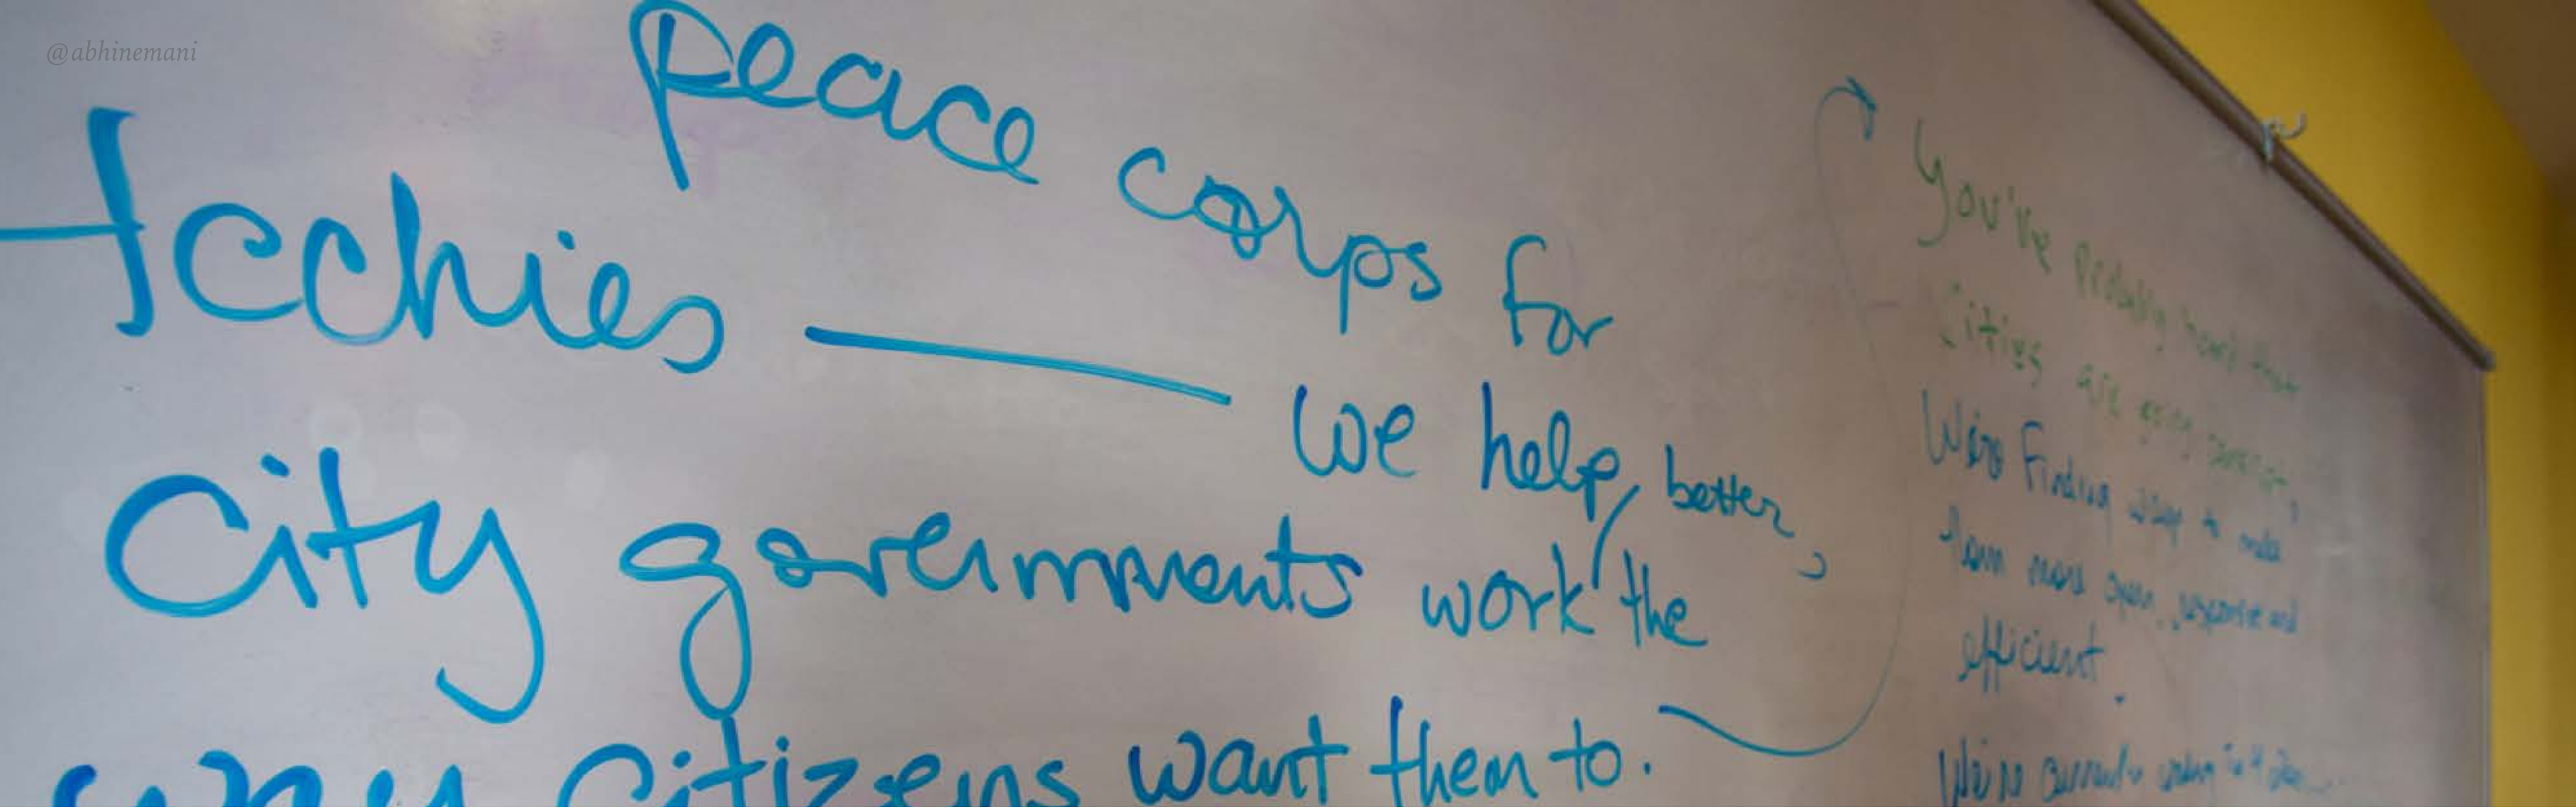

“

A better, digital way to track blighted properties?

3 years. \$3,000,000.

-New Orleans CIO

CODE FOR AMERICA

NGO designed as a “peace corps for geeks” for cities

A team of three CfA fellows were sent to New Orleans to work with the Mayor and the community to find creative ways to use technology to reduce blight in the city.

AN OPEN, LEAN APPROACH

The fellows published all the data they could find as open data, making it possible to more quickly build an application — and enable others to as well.

Common Questions

- > If I have information about a property, how can I get it to the City?

PAPER MAPS (LIKE WE SAW BEFORE) WERE REPLACED WITH INTERACTIVE, SEARCHABLE VISUALIZATIONS

“POWER USERS”

Habitat for Humanity became regular users of BlightStatus

@abhinemani

“

“The app proposes a new kind of more productive communication between the two groups that moves past angry and frustrated citizens on one end, and a paralyzed city on the other.”

-Fast Company

“

The Landrieu administration created BlightSTAT, a process in which representatives from [various agencies] meet to set goals and report on progress... Mayor Landrieu had [in ~1 year] more than made good on his promise, reducing the number of blighted residential properties by about 13,000.

-GovTech Magazine

“

...in the 21st Century, good governance & good policy are inextricably linked to the digital.”

- *Tom Steinberg*

CIVIC TECH: KEYS TO SUCCESS

Empathy

- Build with, not for
- Talk to users
- Understand behavior
- Learn what's out there

Lean

- It's more than just a technical process
- Expect failure
- Only build what's necessary
- Test, test, test

Data

- Data “lives” everywhere
- Be ready to scrape
- Open data is your friend
- ETLs are your best friend

Users

- ~~If you build it they will come~~
- Listen and learn
- Define metrics
- Find partners

Sustainability

- Consider your options: startup, open source, non-profit, academic, etc
- Tech -> Policy
- Expect to train everyone
- Document everything

COURSE DETAILS

How we'll work together

@abhinemani

CIVIC TECH MEANS POLICY AND TECHNOLOGY

This isn't going to be your typical CS course...

CLASSROOM ETIQUETTE

- A different “socratic method”
 - Ask questions
 - Be ready to (try to) answer them
 - Pro-tip: do the readings
- “Constructive selfishness”
 - Give feedback
 - Ask for what you want
 - Fill out the survey
- The city is your classroom
 - Engage in civic tech events
 - Want to talk to someone? Just ask.
- Policy, not Politics

“CIVIC” TECH SPECTRUM

“CIVIC” TECH SPECTRUM

COURSE DETAILS

- Syllabus, Readings, Assignments
 - abhinemani.com/civictechcourse
 - Canvas
- Assignments
 - Weekly assignment (prose or code)
- Online participation
 - Canvas Discussion
 - Class blog
- Final
 - Building civic app
 - Work in teams of 2-3

ASSIGNMENTS

- Read

- Beyond Transparency: Chapter 1 by Joel Mahoney
- Beyond Tech: Policymaking in the Digital Age by Jennifer Pahlka
- Government as a Platform by Tim O'Reilly
- Civic Tech as a Tween by Cyd Harrell

- Do

- Student Survey
 - <https://forms.gle/psJ1NymkqmVy4Wxu6>

Civic technologies are the products, features, and tools that improve government service delivery, community relations, or resident quality of life.
